Children's Case Management Module 5

Child Abuse and Child Sexual Abuse Reporting

Program Description

This session will review the definitions and pertinent laws regarding child abuse and child sexual abuse. The case manager's responsibility regarding reporting of suspected child abuse will also be discussed.

You will be directed to websites that will explain how to better keep children safe. Please go to them when instructed.

Educational Objectives

Upon completion of this module, participants will be able to:

- Discuss the definitions of child abuse and child sexual abuse
- Describe reporting guidelines for suspected child abuse

Child Abuse Laws and Reporting Requirements

This website, KeepKidsSafe.pa.gov, is designed to serve as the hub for information related to critical components impacting child protection including a link for mandated reporters to make reports of suspected child abuse electronically, training on child abuse recognition and reporting, information related to clearances and general information related to child protection.

Please click on link and review all pertinent information.
