

2024 Virtual STAR-Center Conference
May 10, 2024

Will be held virtually via ZOOM

INFORMATION TO BE INCLUDED IN CONFERENCE PROGRAM
(Please complete and return to Jamey Covaleski no later than December 4th)

Name, Credentials, Position Title	Duncan B. Clark, M.D., PhD. Professor of Psychiatry
Affiliation:	Department of Psychiatry School of Medicine University of Pittsburgh
Please Provide a Brief Bio (Also please attach a copy of your CV) As a psychiatrist and clinical psychologist, Dr. Duncan Clark conducts multidisciplinary research and provides clinical care focused on substance use disorders and severe mental illness in adolescents and young adults. He is the Associate Director of the National Consortium on Alcohol and Neurodevelopment in Adolescents and Young Adults, and the Site MPI and Chair of Bioethics and Medical Oversight for the Adolescent Brain Cognitive Development (ABCD) Study. He provides clinical care through the UPMC Center for Psychiatric and Chemical Dependency Program Services (CPCDS).	
Skill Development Workshop (1 hr. and 15 min session (includes Q&A)) Title of Presentation (As you would like it to appear in conference program) Adolescent and young adult substance use disorders, serious mental illness, and suicide risk	
Description (Please describe your presentation in 50 words or less as you would like it to appear in the conference program) This workshop will review and discuss the assessment and treatment options for substance use disorders in adolescents and young adults in the context of comorbid serious mental illness and suicide risk. Behavioral and pharmacological interventions will be considered with a particular focus on common dilemmas in challenging clinical circumstances.	
Level of Presentation (Select one) (This applies to workshops only) Introductory ___ Intermediate x Advanced ___	
Learning Objectives: (Please list 3) At the conclusion of this session, participants should be able to: 1. Clinically assess overlapping risk factors for substance use and suicide risk.	

2. Understand approaches for distinguishing between serious mental illness symptoms and substance use effects.
3. Outline intervention options, including behavioral interventions, level of care options, and pharmacological treatments.

FOR ACCREDITATION PURPOSES PLEASE PROVIDE:

Three (3) current (within the past 10 years) peer-reviewed publications that support the evidence base for the content of your presentation. (See next page).

Publications must be listed in American Psychological Association (APA) Style (see www.apastyle.org for more information).

APA format for journal article citation:

Author last name, Author first initial. Author Second Initial. (Publication Year). Title of article. *Title of Journal*. *volume(issue)* (if issue numbered), pages.

1. Fresan A, et al. (2022) Cannabis smoking increases the risk of suicide ideation and suicide attempt in young individuals of 11-21 years: a Systematic review and meta-analysis. *Journal of Psychiatric Research* 153: 90-98.
2. Petrilli K, et al. (2022) Association of cannabis potency with mental ill health and addiction: a systematic review. *The Lancet Psychiatry* 9(9): 736-750.
3. Kondo KK. & Morasco B. (2020) Pharmacotherapy for the treatment of cannabis use disorder: A systematic review. *Annals of Internal Medicine* 172: 398-412.

If there is more than one presenter, please complete only one form and include information for each presenter. Please send a CV, COI form and AV form for each presenter.

Please e-mail your completed form, along with your CV, to me at coaleskijj@upmc.edu by Monday, December 4, 2023
